

# JUST IN TIME EDUCATION

## WHY USE CASA EDUCATION?

The fire sprinkler industry objectives are to promote, defend, enhance and improve fire protection and part of that is to have people trained and educated. CASA can be the leader and resource for all of your training and education needs in Canada. No other organization in Canada provides as many training opportunities in as many subjects in various formats taught by experts in the industry. Feel free to contact any member of CASA with contact information below:

## WHO SHOULD ATTEND?

- Building/Fire Officials
- Designer/Contractors
- Design Professionals Architects/Engineers
- Building Owners/Managers
- Installers
- Insurance Representatives

## LET CASA INSTRUCTION COME TO YOU!

If you have a group of individuals interested in any of our educational seminars, the Canadian Automatic Sprinkler Association will contract with interested parties to offer seminars at your location.
