Save All Fire Services Inc. CASA Testimonial.

We became CASA members in 2008 sponsored by friends and associates at Vipond Fire. We are an independent small to medium sized contractor, 10-12 road employees, 2-3 office staff. As a company, membership means all of our staff members are also CASA members and all resources offered by CASA are available to all employees. CASA offers many, many resources to all its members. We realized immediate value in our participation in CASA. CASA regularly provides our company with valuable access to technical & code advice and resources as well as flexible and innovative education programs available in various formats. After just a few regional group meetings and open discussions with other members (contractors, suppliers & manufacturers) the value of this membership is easily apparent. Having industry representation on many of the issues important to us all, at a national and international level, by being affiliated with CASA has been very beneficial. We would highly recommend CASA membership to any of our industry partners and peers considering this.

Please feel free to call or e-mail at your convenience with any questions or concerns. Thank you.
